

## **Focus on the following for the MATE 203 Final Exam**

- 1. Introduction and Definition of Terms**
- 2. The First Law of Thermodynamics**
- 3. The Second Law of Thermodynamics**
- 4. The Third Law of Thermodynamics**
- 5. Phase Equilibrium in a One-Component System**
- 6. The Third Law of Thermodynamics**
- 7. Phase Equilibrium in a One-Component System**
- 8. The Behavior of Gases**

**Do not forget to bring a scientific calculator & a small ruler to the exam!**

**Focus on problem solving, not on “fill in the blanks” type questions.**
