EDUCATION

1995-2003

Middle East Technical University (METU), Ankara, Turkey,
Computer Education and Instructional Technology Department, Ph.D.
Thesis: An Electronic Performance Support System for Teaching Turkish as a Foreign Language: A Case Study
Turkce Merhaba (Princeton University),
<http://www.princeton.edu/~turkish/practice/tlepss.html>

1988-1991

Middle East Technical University (METU), Ankara, Turkey,
Computer Engineering Department, MS,
Thesis: Dependence Based Program Transformations for Parallelism Enhancement, January 1991

1984-1988

METU, Ankara, Turkey, Mathematics Department, BS

1983-1984

METU, Ankara, Turkey, English Prep. School

1981-1993

Bolu Ataturk Lisesi, High school

PROFESSIONAL WORK EXPERIENCE

2005-Date

Atilim University, Software Engineering Department Asst. Prof. Dr.

2003-2005

Atilim University, Computer Engineering Department Asst. Prof. Dr.

1999-2002

Indiana University Digital Library Program (IUDLP). Analyst/Programmer
Development of a data entry user interface for IU Archives photograph database project, by using Visual Basic with ORACLE.

Developing software for Variations, which makes use of z39.50 protocol and MARC bibliographic record format from the web application of Variations Track Editor. This allowed for a relatively smooth transition from NOTIS to SIRSI Unicorn in VARIATIONS digitizing and reserves programming activities in the Music Library.

Developing a prototype database model with Oracle for Bradley Film Collection database project. The data was taken from the current system's text data, and analyzed. The relationships found according to the data, and it was loaded to Oracle database. A prototype user interface also generated by using Java Servlets, for searching the database.

Developing an installer by using InstallShield Express, for variations project.

Developing a prototype database model with Oracle for Film Literature Indexes. The data was taken from the current system's text data, and analyzed. The relationships found according to the data, and it was loaded to Oracle database. A prototype user interface also generated by using Java Servlets with ORACLE and "Intermedia Text", for searching the database.

Information learned through the creation of prototype was critical to the development of a grant application to the NEH for full-scale implementation of a web-accessible Film Literature Index, and the prototype has been made available to grant reviews as a proof of concept.

Developing a data model and importing the current data of the IU Archives photograph database project. Oracle was used as the database with its Intermedia Text product. The user interface developed by using JDBC and SERVLET JAVA programs.

Creating and maintaining an ORACLE database for Digital Library Program. Developing a prototype search user interface for DIDO Image Bank by using IBM's Digital Library database and IBM's NET.DATA product.

Developing a "Track Editor" for Variations project by using Java scripts and PERL.

Developing Variations project's Macintosh version by using Visual C++, and Quick Time.

1993-1997

Prime Ministry of Turkey, Database Administrator and Group Manager and technical member for large-scale database system-purchasing team.

Group leader for a system analysis project part of the organization.

- *System analysis and design for the archiving system of the organization.*
- *Defining computer and software needs of the system.*

Group member for the purchasing team of the organization.

- *Purchasing computer systems,*
- *Purchasing a Relational Database System,*
- *Purchasing a Text Retrieval System,*
- *Installing hardware and software, Designing the system,*
- *Preparing the system for daily use of the organization.*

1991-1993

Datasel Bilgisayar A.S., Software Product Manager

Designing systems (Personnel and payroll system, Stock system, Accounting, Trade Unionism System).

After designing these systems, I worked as group manager of development team to develop these systems by using ORACLE Database Management System and SQL Forms.

Hospital Information Systems (developed by Oracle and Developer 2000).

The system has the following modules; Inpatient, Outpatient, Accounting, Stock, Patient profile.

1989-1991

Dataset Bilgisayar A.S., Programmer

Converting COBOL programs for Prime computers to HP3000 MPE OS

COBOL. Converted programs were about:

-Personnel and payroll system,

-Stock system,

-Accounting.

installed these programs to different sites (at least 10 different sites in Turkey) and gave maintenance support.

1987-1988

Koyteks Yatirim Holding, Programmer.

Helping users to use different computer applications,

Developing small applications for specific purposes by BASIC.

Special Projects

Suzan Özel, Nergiz Ercil Çağiltay, Development of a mini grant project Turkish Vocabulary through Pictures, for CARLA University, by using java scripts,

April, 2001

News about this site: Central Eurasian Bulletin, Department of Central Eurasian Studies, Indiana University, December 4, 2000

Developing a student testing system through the Internet, by using PERL, 1998, METU, Ankara, Turkey. Some features of the system: Automatic-mail by the system to the user, Building a database with system files on NT environment, Managing multi-user on system files, Storing user profile, Storing user exam results, Reporting user performance.

L. PROJECTS INVOLVED IN

L8.

HiCure Project, Sağlık Bilişimi Entegre Programında Mükemmeliyet, EU, 1000000 Euro, 2015-2018, Araştırmacı

L7.

Bilişim ile Girişimci Kadın (BGK). Temmuz 2016-Temmuz 2017. Destekleyen Kuruluş: Ankara Kalkınma Ajansı, Destek Tutarı: 120.000 TL. Projede MOOC kapsamında 12 saatlik bir eğitimim programını da kapsayan, yüz-yüze ve çevrim-için eğitim ortamlarında kadınların girişimcilik konularında eğitilmeleri sağlanacaktır. Bu eğitim program sonucunda yapılacak olan değerlendirmeler sonucunda bir sertifika verilerek Türkiye Bilişim Derneği (TBD) bünyesinde oluşturulacak olan e-ticaret ortamında bilgiye dayalı tecrübe ve birikimlerini sermayeye dönüştürerek ail eve ülke ekonomisine katkı vermeleri desteklenecektir. TBD-Ankara Şubesi adına Proje Yöneticisi.

L6.

Surgical Instrument-Guided Robot Assisted Endoscope Control System (NeuRoboScope) Project, aims to develop an innovative robotic system to support surgical operations. The project is funded by the Scientific and Technological Research Council of Turkey (Tübitak-1003), I am involved as researcher in this project, Project Duration: 2015-2017. The project budget is around \$500K. (1.4 milyon TL)

Cerrahi Aletlerle Yönlendirilebilen Robot Yardımlı Endoskop Kontrol Sistemi (NeuRoboScope) Projenin amacı, hipofiz bezinden kaynaklanan tümörlerin cerrahisi sırasında, bu işlemde kullanılan görüntüleme aracını (endoskop) cerrahın istediği şekilde yönlendirilmesine yarayan özel bir robotik sistemin geliştirmesidir. Proje 2015-2017 yılları arasında Tübitak 1003 desteği ile gerçekleştirilmektedir. Proje bütçesi, 1.4 milyon TL. Projede araştırmacı olarak görev almaktayım, geliştirilecek olan sistemin simülasyon ortamında test edilmesi ve robotik system ile cerrah arasındaki iletişim ve yönlendirme konusunda araştırmaların yapılmasımdan sorumluyum.
